+91-8299356981 — mrayushsaxena09@gmail.com — GitHub — LinkedIn
Lucknow, India

Summary

Aspiring Data Scientist with hands-on experience in Python, SQL, Machine Learning, and Django. Skilled in data preprocessing, visualization, predictive modeling, and developing end-to-end web applications using Streamlit and Django. Passionate about solving real-world business problems through data-driven solutions.

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

Expected Graduation: 2027

Training / Experience

Data Science Trainee

Nov 2025 – Present

Softpro India, Lucknow

- Learning data analysis, machine learning, and data preprocessing techniques
- Working with Python libraries such as Pandas, NumPy, and Scikit-learn
- Performing exploratory data analysis (EDA) on real-world datasets
- Gaining hands-on experience in model building and evaluation

Skills

- Programming: Python, SQL
- Data Structures & Algorithms (Python)
- Web Development: Django, HTML, CSS, JavaScript, Bootstrap
- Data Analysis: Pandas, NumPy, Excel
- Visualization: Matplotlib, Seaborn
- Machine Learning: Scikit-learn, Supervised Learning, Model Evaluation
- Tools: Git, GitHub, Jupyter Notebook, Streamlit

Projects

Movie Recommendation System

Live App

- Developed a content-based movie recommendation system using Python and Scikit-learn.
- Applied cosine similarity to recommend movies based on user preferences.
- Integrated TMDB API to display movie posters and deployed the application using Streamlit.

Credit Wise Loan Approval System

- Built a machine learning-based loan approval prediction system using Python and Scikit-learn.
- Performed data preprocessing including missing value handling, feature encoding, and feature scaling.
- Developed an interactive web application using Streamlit for real-time loan eligibility prediction.
- Integrated trained ML model with the frontend to provide instant approval predictions based on applicant details.

Handmade E-commerce Application (Django)

- Developed a full-stack e-commerce web application using Django.
- Implemented user authentication, product listing, and shopping cart functionality.
- Designed responsive user interfaces using HTML, CSS, and Bootstrap.
- Managed backend operations using Django ORM.

Certifications

- Data Analytics with Python – NPTEL (IIT Roorkee)
- Cyber Security – NPTEL (IIT Madras)
- Machine Learning, Generative AI & Artificial Intelligence – IIT Kanpur
